Note: All notices for conferences, symposia, and meetings are under one heading: ANNOUNCEMENTS

Aarskog's syndrome, clinical and genetic aspects 210 *abst*
Abortion and molecular genetics 219: correspondence 794
Acetylcholinesterase, prospective prenatal screening for fetal abnormalities using quantitative immunoassay 211 *abst*
Acromicric dysplasia, and Moore-Federman syndrome, are they the same entity? 320
Acyl-CoA dehydrogenase medium chain region, RFLP analysis 600 *abst*
Adams, Joseph (1756–1818): portraits in medical genetics 116
Adenomatous polyposis, familial, and chromosome 5q deletion: short report 61
Aganglionosis of small and large intestine, associated with cat eye syndrome: case report 647
Albinism, oculocutaneous, Prader-Willi syndrome, and normal karyotype: case report 337
Allelic association for cystic fibrosis testing 426
Alpha$_1$ antitrypsin deficiency, characterisation of variants 596 *abst*
Alphafetoprotein
  low maternal serum values in screening for pregnancies with chromosomal aneuploidies 284 *abst*
  screening and autosomal trisomies 598 *abst*
Alzheimer's disease locus maps close to centromere on long arm of chromosome 21 595 *abst*
Amaurosis, congenital, cone-rod, associated with congenital hypertrichosis, autosomal recessive condition 504
Amniocentesis
  clinical significance of de novo structural rearrangements and markers detected prenatally by: editorial 545
  early, for chromosome analysis, preliminary evaluation 284 *abst*
    cytogenetic evaluation of 60 cases 596 *abst*
    experience of 222 cases 596 *abst*
  midtrimester, child outcome after, development and physical status at four years of age 211 *abst*
  predicting outcome of de novo balanced translocations: short report 590
  transabdominal placental biopsies as alternative to 284 *abst*
Amnion rupture, early, disorganisation as model for 421
Aneuploidies, chromosomal, predictive value of low maternal serum alphafetoprotein values in screening for pregnancies with 284 *abst*
Angelman's syndrome
  association with deletions within 15q11–13 73
  and 15q11–13 deletions: correspondence 538

Deletions
1, long arm, terminal, two cases 284 *abst*
2(q33q36), interstitial, child with congenital abnormalities: short report 204
2, long arm, interstitial, long arm with normal levels of isocitrate dehydrogenase: case report 127
del(4)(q33q35.1) interstitial, mother and two children: case report 652
4q (q21.1::q22.1) interstitial: case report 644
del(4)(q33→qter) in mild dysmorphism, child: case report 776
5q and familial adenomatous polyposis: short report 61
6p, and duplication 9p: short report 64
7q, interstitial deletions, exclusion mapping of gene for beta-glucuronidase 619
7p22.1—pter, terminal, de novo, child without craniosynostosis: case report 528
8q, partial, without Langer-Giedion syndrome 167
9p with duplication 6p: short report 64
10q25.2→q26.1, interstitial: case report 58
11p12 familial interstitial, without phenotypic effect, prenatal diagnosis 283 *abst*
11q interstitial: short report 205
(12)(q15q21.2): short report 343
13q, distal, interstitial, associated with Hirschsprung's disease 100: correspondence 796
(14)(q31.1), terminal, microcephaly, narrow palate, gingival hypertrophy, protuberant ears, and mild mental retardation, 11 year old girl: case report 130
within 15q11–13 associated with Angelman's syndrome 73: correspondence 538
(18)(p11.3→pter) causing genetic counselling difficulties 215 *abst*
(18), interstitial, associated with obesity and abnormal behaviour: short report 62
45,X/46,X,del (Y) (pter→q11.1:), chromosome Y specific probe to identify breakpoint: case report 330
Deletion, Yq in sterile son of man with satellited Y chromosome 145
mapping and carrier estimations of Duchenne muscular dystrophy families, Northern Ireland 212 *abst*
Diaphragm defects, congenital, discordant non-syndromic, in sibs: case report 781
Diastrophic dysplasia, exclusion of COL2A1 gene as mutation site 314
DiGeorge's syndrome, features in child with X;22 translocation: case report 778
Digital abnormalities, ichthyosis, and unusual facies, new recessive syndrome: case report 339
Disorganisation as model for early amnion rupture 421

Disorganisation, mouse mutant, possible human homologue for 417
DNA
alleles, three, linked to Duchenne muscular dystrophy gene, population frequencies: short communication 390
banking guidelines, report of Clinical Genetics Society working party on DNA banking 245
in carrier detection and early diagnosis of Wilson's disease by restriction fragment length polymorphism analysis 78
and prenatal diagnosis in direct identification in haemophilia B 595 *abst*
in cystic fibrosis 283 *abst*
five linked probes, cystic fibrosis families, West Midlands 213 *abst*
and XV2c/KM19, linkage disequilibrium between, Northern Ireland 213 *abst*
D4S10 locus in presymptomatic testing for Huntington's disease 214 *abst*
D4S98, D4S95, and Huntington's disease gene 676
(DXYS1) in linkage study of segregating for X linked Charcot–Marie–Tooth disease, Scotland 215 *abst*
diagnosis as diagnostic service: editorial 217
diagnosis in National Health Service, Great Britain 219: correspondence 794
in Duchenne and Becker muscular dystrophy 599 *abst*
in dystrophia myotonica, Scotland 213 *abst*
in familial hypercholesterolaemia diagnosis 594 *abst*
fetal, amplified, prenatal diagnosis of beta thalassaemia based on restriction endonuclease analysis 363
fingerprint changes in combination chemotherapy 599 *abst*
genetic services in context, what do they cost? 237
in identification for haplotype pattern for PKU allele, Gypsy population of Wales 499
linkage, alpha thalassaemia as potential source of error for adult polycystic kidney disease 6
disequilibrium data in prenatal diagnosis of cystic fibrosis 213 *abst*
for presymptomatic detection and prenatal diagnosis of myotonic dystrophy 750
studies on X linked centronuclear myopathy family 594 *abst*
in prenatal exclusion testing for Huntington's disease 83
maternal, in chorionic villus samples 595 *abst*
mitochondrial, in Leber's hereditary optic neuropathy 739
in Norrie's disease 600 *abst*
for prenatal testing for Huntington's disease, different options 353
polymorphisms in facioscapulohumeral disease, genetic linkage study 490
probe testing, demand for in three genetic centres, Great Britain, August 1986 to July 1987 226
in resolution of 45,X/46,r(?) and 46,X,+mar karyotypes 283 *abst*
in Turner's syndrome 594 *abst*
technology, importance for future: conference report 733
ten different polymorphisms at LDL receptor gene locus 255
in Wolf–Hirschhorn syndrome, parental origin 587 *abst*
and zinc finger genes 599 *abst*
Down's syndrome
childhood deaths, Queensland, Australia, 1976 to 1985 764
male, and fertility 294
mosaic, unusual case involving two different Robertsonian translocations: case report 198
pregnancies, maternal serum chorionic gonadotrophin levels 596 *abst*
without detectable karyotypic anomaly but with microduplication within chromosome 21 282 *abst*
Duchenne muscular dystrophy
carrier detection using new RFLP 599 *abst*
carrier estimations and deletion mapping, Northern Ireland 212 *abst*
correlation of clinical and deletion data 682
deletion, misdiagnosed normal fetus owing to undetected germinal mosaicism: short report 790
estimating probability of gonadal mosaicism in mothers from maternal creatine kinase levels 599 *abst*
families, analysis with cDNA probes, Scotland 601 *abst*
gene, three DNA alleles linked to, population frequencies: short communication 390
mutations, new, germinal mosaicism increases recurrence risk 553
polymerase chain reaction in diagnosis 593 *abst*
prenatal diagnosis and carrier determination 1
survey of manifesting carriers, Wales 212 *abst*
Wales, 15 year study, 1971 to 1986 560
impact of DNA linkage analysis and cDNA deletion screening 565
Duplications
application of in situ hybridisation to diagnostic cytogenetics 215 *abst*
6p and deletion 9p: short report 64
distal 17q from maternal translocation, additional case with unique features: case report 577
Dwarfism, 3M, study of two further sibs: case report 583
Dysequilibrium syndrome 208 *abst*
Dysmorphic facial features, congenital heart disease, choanal stenosis, short stature, and developmental delay, brother and sister, unknown syndrome: dysmorphology report 407
Dysmorphism, mild, del(4)(q33→qter), child: case report 776
Dystrophia myotonica, DNA probing, Scotland 213 *abst*
Dystrophin
cDNA probes for differential diagnosis between Becker muscular dystrophy and limb-girdle muscular dystrophy 593 *abst*
gene deletions in males diagnosed as spinal muscular atrophy 212 *abst*
Dystrophy, a revised definition 769

Ectodermal dysplasia, single maxillary incisor as manifestation: case report 648
Ectrodactyly-ectodermal dysplasia-clefting syndrome, choanal atresia as feature: case report 586
Ehlers–Danlos syndrome type IV, alpha I (III) CB5 mutation 211 *abst*
  family with, recessive or dominant 210 *abst*
Emery–Dreifuss syndrome: syndrome of the month 637
Ergotamine teratogenicity: correspondence 69
European Society for Human Genetics. Satellite meeting on meiotic microspreading: conference report 141
Extraocular muscles, absent or hypoplastic: correspondence 216

Facial abnormalities, pachygyria, and joint contractures, unknown syndrome: dysmorphology report 788
Facies,
  abnormal, hypothyroidism, postaxial polydactyly, and severe retardation, unknown syndrome, a third patient: dysmorphology report 785
  distinctive, microcephaly, and Hirschsprung's disease: correspondence 287
  unusual, digital abnormalities, and ichthyosis, new recessive syndrome: case report 339
Facioscapulohumeral disease
  genetic linkage study with 24 polymorphic DNA probes 490
  linkage analysis in spinal muscular atrophy type 487
  (Landouzy-Déjérine) disease exclusion map 481
    workshop, Manchester, 16 to 17 November 1988: conference report 535
  muscular dystrophy, estimation of age dependent penetrance, by minimising ascertainment bias 755
    genetic study 207 *abst*
    linkage analysis of French families 485
Familial adenomatous polyposis
  and chromosome 5q deletion: short report 61
  regional register, congenital hypertrophy of retinal pigment epithelium as means of carrier detection 207 *abst*
Fanconi anaemia, cytogenetic investigation 286 *abst*
Fertility in male with trisomy 21 294
Flanking markers for NF1 211 *abst*
Flow cytometry investigation of balanced translocation 597 *abst*
Foot, split, and split hand malformation, possible autosomal recessive form: case report 138
Fountain's syndrome, mental retardation, sensorineural deafness, skeletal abnormalities, and coarse face with full lips: syndrome of the month 722
Fragile X syndrome
  intelligence and cognitive profile, longitudinal study in 18 fra(X) boys 443
  linkage analysis using *DXS98* 210 *abst*
  testing in diagnostic cytogenetics laboratory 439
  when does it occur 285 *abst*
Friedreich's ataxia linkage to human chromosome 9 209 *abst*
Frontonasal dysplasia
  congenital heart defect, and short stature, further observation: dysmorphology report 408
  and Poland's syndrome 598 *abst*
Fryns' syndrome features and ring chromosome 15: dysmorphology report 469

Gastric cancer, distribution of haptoglobin phenotypes 172
Gastrointestinal abnormalities in mosaic trisomy 9 syndrome: short report 280
Gene, new deficiency, PIZ_{tun}, genetic studies 744
Genetics
  abuse, and murderous science: correspondence 476
  counselling difficulties with duplication and deficiency of 18p 215 *abst*
  heterogeneity, in Leber's hereditary optic neuropathy 739
  services in context of DNA probes, what do they cost? 237
Genital anomalies, polydactyly, and retinitis pigmentosa, new syndrome 211 *abst*
Germinal mosaicism increases recurrence risk for new Duchenne muscular dystrophy mutations 553
Gonadal mosaicism, estimating probability, in mothers of boys with Duchenne muscular dystrophy from maternal creatine kinase levels 599 *abst*
Gypsy population of Wales, identification of haplotype pattern associated with mutant PKU allele 499

Haemoglobinopathy carrier screening, knowledge and perceptions among general practitioners, Cardiff 109
Haemophilia B, DNA carrier and prenatal diagnosis in direct identification 595 *abst*
Hand
  split, and split foot malformation, possible autosomal recessive form: case report 138
  unilateral absence, second cousins: case report 190
Haplotype analysis in Scottish cystic fibrosis families 594 *abst*
Haptoglobin phenotypes distribution in oesophageal and gastric cancer 172
Hearing loss in hereditary distal muscular atrophy 105
Hereditary motor and sensory neuropathy type I is not linked to a chromosome 1 linkage group 208 *abst*
Hirschsprung's disease
  associated with interstitial deletion of distal 13q 100: correspondence 796
  and congenital central hypoventilation syndrome in half sibs: case report 272
  distinctive facies, and microcephaly: correspondence 287

HLA
antigens matching significantly increases transplant survival 207 *abst*
identical affected and unaffected sibs in 21-hydroxylase deficient families 10
Holoprosencephaly, variation of expression in face and brain, three sibs: case report 274
Hunter's syndrome
gene localisation at distal region of X chromosome long arm 309
(MPS IIB), mild, pituitary function studies: case report 731
Huntington's disease
clinical application of predictive testing using linked DNA markers 592 *abst*
DNA, *D4S10* locus in presymptomatic testing 214 *abst*
DNA markers in prenatal exclusion testing 83
gene, and non-random association between alleles detected at *D4S95* and *D4S98* 676
linkage disequilibrium 673
locus, definition of chromosomal breakpoint near to 214 *abst*
new mutation 18
prenatal exclusion testing using polymerase chain reaction 214 *abst*
prenatal testing using DNA probes, different options 353
Hybridisation, in situ
application to diagnostic cytogenetics 215 *abst*
to human meiotic metaphase I (MI) preparations 282 *abst*
non-isotopic, in 46,X,+mar karyotype: case report 192
resolution of 45,X/46,r(?) and 46,X,+mar karyotypes using X and Y specific probes 283 *abst*
Hydrocephalus, tall stature, joint laxity, and kyphoscoliosis, a new inherited disorder of connective tissue?: case report 51
21-Hydroxylase
deficiency families with HLA identical affected and unaffected sibs 10
long range mapping for analysing gene organisation 209 *abst*
Hypercalcaemia, infantile Williams–Beuren syndrome, with calcitonin–CGRP gene 609
Hypercholesterolaemia, familial
DNA probes in diagnosis 594 *abst*
prevalence, rural South Africa 32
study using RFLPs, Iceland 494
Hyperparathyroidism, autosomal recessive nephropathy, and deafness, a new syndrome 289
Hypertelorism, mental retardation, iris coloboma, and ptosis: a new syndrome: correspondence 69
Hypertrichosis
congenital, associated with cone-rod congenital amaurosis, autosomal recessive condition 504
cubiti (hairy elbows) and short stature, recognisable association 382
Hypohidrotic ectodermal dysplasia
primary hypothyroidism, and agenesis of the corpus callosum: case report 520
sweat pores and skin temperature patterns 592 *abst*
Hypoplastic nose, microcephaly, exophthalmos, gum hyperplasia, cleft palate, low set ears, and osteosclerosis, unknown syndrome: dysmorphology report 786
Hypothyroidism
abnormal facies, postaxial polydactyly, and severe retardation, unknown syndrome, a third patient: dysmorphology report 785
congenital, spiky hair, and cleft palate, a new syndrome?: case report 49
Hypoventilation syndrome, congenital central, and Hirschsprung's disease in half sibs: case report 272

ICF (immunodeficiency, centromeric heterochromatin, facial anomalies) mutation, differential expression in lymphocytes and fibroblasts 452
Ichthyosis, unusual facies, and digital abnormalities, new recessive syndrome 339
Immunodeficiency, centromeric heterochromatin, facial anomalies (ICF) mutation, differential expression in lymphocytes and fibroblasts 452
Infantile hypercalcaemia/Williams–Beuren syndrome, with calcitonin–CGRP gene 609
Inversion (10) recombinants in a family, case of two: case report 461
Iris coloboma, ptosis, hypertelorism, and mental retardation: a new syndrome: correspondence 69
Isocitrate dehydrogenase, normal levels, with interstitial deletion long arm of chromosome 2: case report 127
Israel, medical genetics: medical genetics around the world 179
Ivemark's syndrome and Müllerian duct anomaly in monozygotic twins 597 *abst*

Johanson–Blizzard syndrome: syndrome of the month 45
Joint contractures, facial abnormalities, and pachygyria, unknown syndrome: dysmorphology report 788
Joint laxity, tall stature, kyphoscoliosis, and hydrocephalus, a new inherited disorder of connective tissue?: case report 51

Klinefelter's syndrome and Becker muscular dystrophy, possible cause of variable expression of BMD within a pedigree 251
Kyphomelic dysplasia: case report 457
Kyphoscoliosis, hydrocephalus, tall stature, and joint laxity, a new inherited disorder of connective tissue?: case report 51
Kyphosis, Scheuermann's juvenile, dominant inheritance: case report 400

Landouzy–Déjérine disease *see* Facioscapulohumeral disease
Langer–Giedion syndrome without partial deletion 8q, recognisable syndrome 167

Leber's hereditary optic neuropathy
genetic heterogeneity and mitochondrial DNA 739
with rhodanese isozymes, three subjects 113
Limb
anomalies in CHARGE association: dysmorphology report 202
defects, and Van der Woude syndrome, chance of recurrence: correspondence 347
girdle muscular dystrophy and Becker muscular dystrophy, dystrophin cDNA probes for differential diagnosis 593 *abst*
LINKAGE, in X linked or autosomal recessive inheritance data 305
Long range mapping, powerful method for analysing gene organisation at duplicated 21-hydroxylase and complement C4 loci 209 *abst*
Low density lipoprotein receptor gene locus, haplotypes identified by ten DNA restriction fragment length polymorphisms 255
Lumbosacral spina bifida, due to failure of neural folding or by defective canalisation 160
Lung carcinoma and chromosome 3, one step into carcinogenesis 286 *abst*

3M dwarfism, study of two further sibs: case report 583
Mapping, long range, powerful method for analysing gene organisation at duplicated 21-hydroxylase and complement C4 loci 209 *abst*
Martsolf's syndrome, microcephaly, mental retardation, cataracts, and hypogonadism in sibs: case report 397
Maxillary incisor, single, as manifestation of ectodermal dysplasia: case report 648
Medical genetics, Israel: medical genetics around the world 179
Megacystis-microcolon-intestinal hypoperistalsis syndrome, fatal autosomal recessive condition: short report 66: prenatal diagnosis: case report, 403
Meiosis, recombination, hypervariable minisatellite regions are hotspots for 282 *abst*
Meiotic microspreading, European Society for Human Genetics, satellite meeting: conference report 141
Mental retardation
familial, associated with balanced chromosome rearrangement rcp t(8;11)(q24.3;p15.1): case report 642
interstitial deletion, long arm of chromosome 2 with normal levels of isocitrate dehydrogenase: case report 127
iris coloboma, ptosis, and hypertelorism: a new syndrome: correspondence 69
mild idiopathic, recurrence risks 260
Mentally handicapped, chromosome studies, males in institution 379
Microcephaly
dominantly inherited syndrome, sparse hair, mental retardation, and seizures 597 *abst*
Hirschsprung's disease, and distinctive facies: correspondence 287
hypoplastic nose, exophthalmos, gum hyperplasia, cleft palate, low set ears, and osteosclerosis, unknown syndrome: dysmorphology report 786
narrow palate, gingival hypertrophy, protuberant ears, and mild mental retardation with terminal deletion (14)(q13.1), 11 year old girl: case report 130
seizures, mental retardation, congenital heart disease, and skeletal abnormalities, unknown syndrome: dysmorphology report 665
Microduplication within chromosome 21, with Down's syndrome, but without detectable karyotypic anomaly 282 *abst*
Minisatellite
probes to study DNA damage in chemotherapy 210 *abst*
regions, hypervariable, are hotspots for recombination at meiosis, man 282 *abst*
Moebius' syndrome with unilateral cerebellar hypoplasia: case report 579
Mohr's syndrome, central nervous system malformations: case report 659
Molecular genetics
as diagnostic service: editorial 217: evolution 209 *abst*: correspondence 794
in National Health Service, Great Britain 219
Monosomy 3q, partial, boy with short stature, developmental delay, and mild dysmorphic features: case report 729
Moore–Federman syndrome and acromicric dysplasia, are they the same entity? 320
Mortality, consanguinity related prenatal and postnatal, of populations of seven Pakistani Punjab cities 267
Mosaicism, germinal, undetected, Duchenne muscular dystrophy deletion, misdiagnosed normal fetus: short report 790
Mouse mutant disorganisation, possible human homologue for 417
Müllerian duct anomaly and Ivemark's syndrome in monozygotic twins 597 *abst*
Murderous science and genetics abuse: correspondence 476
Muscular atrophy
hereditary distal, with vocal cord paralysis and sensorineural hearing loss, possible dominant form of spinal muscular atrophy 105
spinal, dystrophin gene deletions diagnosed as, males 212 *abst*
hereditary distal muscular atrophy with vocal cord paralysis and sensorineural hearing loss, possible dominant form 105
Muscular dystrophy
benign, risk calculation, families with consanguinity 299
facioscapulohumeral *see* Facioscapulohumeral disease
with ocular myopathy, autosomal recessive kinship 208 *abst*
Myotonic dystrophy
families, study of seven 600 *abst*
presymptomatic detection and prenatal diagnosis, by means of linked DNA markers 750

Nephrotic syndrome, transient, after anaesthesia resulting from familial cryofibrinogen precipitating at 35°C 631
Neural tube defects
current trends in prevalence at birth, Singapore: correspondence 412
prevention by diet, Bedouins: correspondence 538
recurrence after 'partial' vitamin supplementation 326
Neurofibromatosis
type 1, physical and genetic studies 600 *abst*
von Recklinghausen, genetic study, south east Wales. I. Prevalence, fitness, mutation rate, and effect of parental transmission on severity 704: II Guidelines for genetic counselling 712
Non-Hodgkin's lymphomas, cytogenetics 285 *abst*
Noonan-like craniofacial features, digital anomalies, and premature birth, unknown syndrome: dysmorphology report 470
Noonan's syndrome, results of patient questionnaire 597 *abst*
Norrie's disease, carrier detection and prenatal diagnosis 600 *abst*

Ocular myopathy with muscular dystrophy, autosomal recessive kinship 208 *abst*
Oesophageal cancer, distribution of haptoglobin phenotypes 172
Osteogenesis imperfecta
lethal: correspondence 410
linked to COL1A2 and associated with structural defect in type I collagen molecule, clinical variability 358
type I, single base pair alterations as predominant category of mutation: correspondence 410
Osteoglophonic dysplasia: syndrome of the month 572

Pachygyria, joint contractures, and facial abnormalities, unknown syndrome: dysmorphology report 788
Pakistani Punjab cities, consanguinity related prenatal and postnatal mortality 267
Partial sacral agenesis with 18p− syndrome: correspondence 70
Patent ductus arteriosus with characteristic facies, autosomal dominant syndrome 597 *abst*
Perinatal necropsy ultrasound 368
Phenylketonuria
genetic analysis of different kinds in one family 598 *abst*
haplotype pattern, DNA probe identification, Gypsy population of Wales 499
PI locus for Z_{null}, genetic studies 744
Pigmentation, skin, with other abnormalities, 46,XY,del (2)(q32.2q33.1) 16 year old boy: case report 127
Placental biopsies, transabdominal, as possible alternative to amniocentesis 284 *abst*
Poland's syndrome and frontonasal dysplasia 598 *abst*
Polycystic kidney disease, adult
alpha thalassaemia as potential source of error in DNA linkage studies 6
in north west, knowledge, experience, and attitudes to prenatal diagnosis in 100 kindreds 592 *abst*
Polydactyly, retinitis pigmentosa, and genital anomalies, new syndrome 211 *abst*
Polymerase chain reaction
applications to cystic fibrosis 214 *abst*
in diagnosis of Duchenne and Becker muscular dystrophy 593 *abst*
in prenatal exclusion testing for Huntington's disease 214 *abst*
Porencephalic cyst in pycnodysostosis: case report 782
Prader-Willi syndrome, oculocutaneous albinism, and normal karyotype: case report 337
Prenatal
diagnosis of cystic fibrosis, use of DNA linkage disequilibrium data 213 *abst*
of familial interstitial deletion of 11p12 with phenotypic effect 283 *abst*
exclusion testing for Huntington's disease using polymerase chain reaction 214 *abst*
Ptosis, hypertelorism, mental retardation, and iris coloboma: a new syndrome: correspondence 69
Putative testis determining sequences share homology with loci on chromosome X, Y, and 9, distinguishable transcripts 593 *abst*
Pycnodysostosis with porencephalic cyst: case report 782

Reproductive behaviour and consistent patterns of abnormality in offspring of Vietnam veterans: correspondence 602
Restriction
endonuclease analysis of amplified fetal DNA, prenatal diagnosis of beta-thalassaemia based on 363
fragment length polymorphism, analysis of acyl-CoA dehydrogenase medium chain region 600 *abst*
in carrier detection and early detection and early diagnosis of Wilson's disease 78
familial hypercholesterolaemia in Iceland 494
in identification of haplotypes at human low density lipoprotein receptor gene locus 255
Retinitis pigmentosa, genital anomalies, and polydactyly, new syndrome 211 *abst*
Retinoblastoma locus for genetic counselling and early diagnosis, use of molecular information 209 *abst*
Rhodanese isozymes with Leber's optic neuropathy, three subjects 113
Ring chromosome 15 with Fryns' syndrome features: dysmorphology report 469
Robertsonian translocations, two different, unusual case of mosaic Down's syndrome involving: case report 198

Saethre–Chotzen syndrome, variant, or new craniosynostosis syndrome, auralcephalosyndactyly: case report 522
Scheuermann's juvenile kyphosis, dominant inheritance: case report 400

Sensenbrenner's syndrome (cranioectodermal dysplasia): syndrome of the month 393
Short rib syndrome without polydactyly: correspondence 346
SHORT syndrome, further delineation and natural history: short report 473
Silver-Russell syndrome, severe 447
Skin temperature patterns and X-linked hypohidrotic ectodermal dysplasia 592 *abst*
Sneezing disorder, autosomal dominant, provoked by fullness of stomach: correspondence 539
Spiky hair, cleft palate, and congenital hypothyroidism, a new syndrome?: case report 49
Spina bifida, lumbosacral, due to failure of neural folding or by defective canalisation 160
Spondyloenchondrodysplasia, four patients 93
Steroid sulphatase locus, physical mapping around 599 *abst*
Stickler's syndrome: syndrome of the month 119
Supravalvular aortic stenosis, familial, genetic study 86
Sweat pores and X-linked hypohidrotic ectodermal dysplasia 592 *abst*

T cell receptor beta chain polymorphisms associated with cystic fibrosis 431: 214 *abst*
Tall stature, joint laxity, kyphoscoliosis, and hydrocephalus, a new inherited disorder of connective tissue?: case report 51
Tetrasomy
18p, sibs born to mother with trisomy 18p: case report 195
unbalanced abnormalities of short arm of chromosome 12 285 *abst*
Thalassaemia
alpha, as potential source of error in DNA linkage studies for adult polycystic kidney disease 6
beta, prenatal diagnosis based on restriction endonuclease analysis of amplified fetal DNA 363
prevention programme, updated results, Latium: short report 667
Thanatophoric dysplasia, identical twins: case report 276: correspondence 735
Thumb, triphalangeal: correspondence 477
Tissue specific radiosensitivity with new chromosomal instability syndrome 208 *abst*
Toluene embryopathy, two new cases: case report 333
Translocation
balanced, investigation by flow cytometry 597 *abst*
de novo, outcome ascertained prenatally: short report 590
familial, mild clinical effects in unbalanced carriers 282 *abst*
involving the short arm of an acrocentric chromosome, problems in diagnosis 282 *abst*
maternal, 9;16, with partial trisomy 16q in 6 month old female offspring: short report 63
(9;18) with two abnormal offspring each with different chromosome derivatives: case report 655
duplication of distal 17q: case report 577
reciprocal, causing familial Wolf–Hirschhorn syndrome 215 *abst*
t(9;16) familial, report of female with deletion of 9p and duplication of 16q: case report 525
X;22 with features of Turner's and DiGeorge's syndromes, child: case report 778
Transplant survival, matching HLA antigens significantly increases 207 *abst*
Triphalangeal thumb: correspondence 477
Trisomies
autosomal, prospective screening using combination of MSAFP and age, July 1987 to June 1988 598 *abst*
distal, familial, 8(q24.13→qter), 8 patients: case report 133
partial, chromosome 16q secondary to maternal 9;16 translocation: short report 63
unbalanced abnormalities of short arm of chromosome 12 285 *abst*
4p, de novo partial, third case: short report 344
9, gastrointestinal abnormalities: short report 280
tRNA gene cluster ($tRNA^{Leu}$, $tRNA^{Gln}$, $tRNA^{Lys}$) to 17p12—pter, chromsomal assignment 212 *abst*
Tuberous sclerosis
diagnostic and counselling difficulties 694
evidence for genetic heterogeneity 511
genetic aspects, west Scotland 28
linkage analysis 593 *abst*
with multiple markers from chromosome 9 212 *abst*
Turcot syndrome family, suggesting autosomal dominant inheritance 592 *abst*
Turner's syndrome
features in child with X;22 translocation: case report 778
molecular analysis of X chromosome 600 *abst*
use of DNA probes 594 *abst*

Ultrasound in perinatal necropsy 368
Unknown syndromes
abnormal facies, hypothyroidism, postaxial polydactyly, and severe retardation, a third patient: dysmorphology report 785
congenital heart disease, ptosis, hypodontia, and craniosynostosis: dysmorphology report 664
microcephaly, hypoplastic nose, exophthalmos, gum hyperplasia, cleft palate, low set ears, and osteosclerosis: dysmorphology report 786
pachygyria, joint contractures, and facial abnormalities: dysmorphology report 788
in sibs, microcephaly, seizures, mental retardation, congenital heart disease, and skeletal abnormalities: dysmorphology report 665

Valproate phenotype, fetal, recognisable by mid pregnancy: correspondence 348
Van der Woude syndrome and limb defects, chance of recurrence: correspondence 347
Vietnam veterans, reproductive behaviour and consistent patterns of abnormality in offspring: correspondence 602
Vitamin supplementation, 'partial', neural tube defect recurrence after 326

Vocal cord paralysis in hereditary distal muscular atrophy 105
Van Hippel–Lindau disease, clinical features and prognosis 600 *abst*
Von Recklinghausen neurofibromatosis
genetic study, south east Wales. I Prevalence, fitness, mutation rate, and effect of parental transmission on severity 704: II Guidelines for genetic counselling 712
physical and genetic studies 600 *abst*
Waardenburg's syndrome, genetic heterogeneity: correspondence 411
Werdnig–Hoffmann disease, Hungarian study 761
Williams–Beuren syndrome/infantile hypercalcaemia, with calcitonin–CGRP gene 609
Wilson's disease, DNA markers in carrier detection and early diagnosis by restriction fragment length polymorphism analysis 78
Winchester's syndrome: syndrome of the month 772
Wolf–Hirschhorn syndrome
familial, resulting from reciprocal translocation 215 *abst*
parental origin using cytogenetics and DNA probes 597 *abst*
X linked
and autosomal recessive? new approach to old problem 305
Charcot–Marie–Tooth disease, DNA probe *(DXYS1)* in linkage study of segregating for, Scotland 215 *abst*
deafness with stapes fixation and cloned DNA sequence on long arm of X chromosome, linkage between 209 *abst*
mental retardation, family with separate syndrome? 373
non-specific, linkage analysis in large family with 211 *abst*
Yunis–Varon syndrome, further delineation: case report 55
Zinc finger genes, three, localisation using Southern analysis of somatic cell hybrid DNA and non-radioactive in situ hybridisation 599 *abst*
